Data Quality Notes

Reporting Period: August 2025

Data Source: Wait Time Information System (WTIS) and direct file submission to CCO via MFT Tumbleweed (MRI and CT Extracts i.e. Booking File, Patient File and Operating Hour File).

Important Notes:

- 1. The MRI and CT wait times data used for the dashboard was extracted on the 6th business day after month end from the Wait Time Information System (WTIS) and the MRI and CT efficiency data was extracted on the 13th business day after month end from MFT Tumbleweed (MRI and CT Extracts i.e. Booking File, Patient File and Operating Hour File). Please note that the MRI and CT efficiency data are based on extracts submitted via MFT Tumbleweed by the 15th business day of the month. In addition, historical information for the wait time (90th percentile) and report turnaround time (90th percentile) indicators contained in these reports will be updated with the most up-to-date data in the Wait Time Information System.
- 2. The reportability designations and data quality notes pertain to the monthly MRI and CT data extracted from MFT Tumbleweed on the 15th business day of the month following the reporting period.
- 3. MRI and CT data are shown at the LHIN and Provincial level if 90% of the contributing sites have submitted data that is suitable for reporting. Please refer to Methodology worksheet for more details on reportability designations
- 4. The Demand (OP), Wait List (OP), and Missed Procedure / No Show KPIs are reported with a two month delay in order to be able to report more accurate information. This means that the most recent report will not have information available for these KPIs, but they will be populated for two months earlier.

Update to DI Efficiency Performance reporting

Note: As per the memorandum sent to Ontario Health and hospitals on March 15, 2020, hospitals were requested to ramp down elective surgeries and other non-emergent clinical activities to preserve capacity during pandemic. Results from March 2020 onwards should be interpreted with caution.

Note: Starting with the reporting of December 2023 data, the methodology used to calculate DI Wait List volumes has been updated to support better accuracy of this metric.

		Current Rep	orting M	Ionth Site-Specific Data Quality Notes - August 2025
Data Month	Site Name	Site No.		Data Quality Notes
	Bluewater Health - Sarnia General Site	4109	1	Performed MRI and CT volumes were notably lower in August compared to prior months.
	Brantford General Hospital	3996	4	CT Operating Hours were not submitted, metrics that use this information have been suppressed.
	Kingston Health Sciences Centre-Kingston General	4832	10	Due to technical issues, data submitted to the WTIS does not support accurate reporting, indicators have been suppressed.
	Kingston Health Sciences Centre-Hotel Dieu	4829	10	Due to technical issues, data submitted to the WTIS does not support accurate reporting, indicators have been suppressed.
	KMH MRI - Kitchner	6021198	8	Due to technical issues, data submitted to the WTIS does not support accurate reporting, indicators have been suppressed.
	KMH MRI - Thornhill	3704912	8	Due to technical issues, data submitted to the WTIS does not support accurate reporting, indicators have been suppressed.
	Niagara Health System - Greater Niagara Site	3982	4	Due to technical issues, data submitted to the WTIS does not support accurate reporting, indicators have been suppressed.
	Niagara Health System - St. Catharines General Site	4045	4	Due to technical issues, data submitted to the WTIS does not support accurate reporting, indicators have been suppressed.
	Niagara Health System - Welland County	3978	4	Due to technical issues, data submitted to the WTIS does not support accurate reporting, indicators have been suppressed.
Aug-25	Perth & Smiths Falls Dist - Smiths Falls	4316	10	The calculated value for CT Patients per Operating Hour is outside of expected ranges and has been suppressed.
	Sioux Lookout Meno-Ya-Win Hlth Ctr - Distr	4137	14	CT Operating Hours were not submitted, metrics that use this information have been suppressed.
	Southlake Regional Health Centre	4001	8	Data for MRI and CT Efficiency indicators was submitted via template files.
	Stevenson Memorial Hospital Alliston	4249	8	Data for CT Efficiency indicators was submitted via template files.
	Unity Health Toronto - St Josephs	4857	7	Due to technical issues, data submitted to the WTIS does not support accurate reporting, indicators have been suppressed.
	Unity Health Toronto - St Michaels	4864	7	Due to technical issues, data submitted to the WTIS does not support accurate reporting, indicators have been suppressed.
	UHN - Princess Margaret Hospital	4406	7	Due to technical issues, the values for CT Wait Times are incorrect and have been suppressed.
	UHN - Toronto General Hospital	4265	7	Due to technical issues, the values for CT Wait Times are incorrect and have been suppressed.
	UHN - Toronto Western Hospital	4266	7	Due to technical issues, the values for CT Wait Times are incorrect and have been suppressed.
	Woodstock General Hospital	4057	2	CT Operating Hours were not submitted, metrics that use this information have been suppressed.
		Report	ing Mor	nth Site-Specific Data Quality Notes - July 2025
Data Month	Site Name	Site No.		Data Quality Notes
	Haldimand War Memorial Hospital	4070	4	Performed volumes were lower that previous months due to unplanned downtime.
	Kingston Health Sciences Centre-Kingston General	4832	10	Due to technical issues, data submitted to the WTIS does not support accurate reporting, indicators have been suppressed.
	Kingston Health Sciences Centre-Hotel Dieu	4829	10	Due to technical issues, data submitted to the WTIS does not support accurate reporting, indicators have been suppressed.
	KMH MRI - Kitchner	6021198	8	Due to technical issues, data submitted to the WTIS does not support accurate reporting, indicators have been suppressed.
	KMH MRI - Thornhill	3704912	8	Due to technical issues, data submitted to the WTIS does not support accurate reporting, indicators have been suppressed.
	Mackenzie Richmond Hill Hospital	4138	8	The calculated value for CT Patients per Operating Hour is outside of historic ranges, interpret with caution
	Niagara Health System - Greater Niagara Site	3982	4	Due to technical issues, data submitted to the WTIS does not support accurate reporting, indicators have been suppressed.
	Niagara Health System - St. Catharines General Site	4045	4	Due to technical issues, data submitted to the WTIS does not support accurate reporting, indicators have been suppressed.
Jul-25	Niagara Health System - Welland County	3978	4	Due to technical issues, data submitted to the WTIS does not support accurate reporting, indicators have been suppressed.
	Perth & Smiths Falls Dist - Smiths Falls	4316	10	The calculated value for CT Patients per Operating Hour is outside of expected ranges and has been suppressed.
